PROFILE

1+ years experienced Front-end Web Developer with experience in identifying web-based user interactions along with designing & implementing highly responsive user interface components by deploying React concepts. I use HTML, SCSS/CSS, Java Script, React, Redux, Next.js, and axios libraries.

EDUCATION

Secondary Education, Ternopil Technical Lyceum
Ternopil'

Sep 2010 — May 2021

Graduated with gold medal.

Higher Education, Wrocławska Akademia Biznesu
Wroclaw

Sep 2021 — Present

PERSONAL PROJECTS

E-commerce Site

Aug 2022 — Sep 2022

Built a modern e-commerce web store using React and Redux libraries, based on a database of GraphQL. What's included: the main page with products, a PDP page with the possibility to change attributes of a product, a mobile cart of chosen products, and the main cart for purchasing.

// GitHub repo //

Social Network

Jun 2022 — Aug 2022

React/Redux

HTML5

JavaScript

Next.js/Redux

The social network is made with React and Redux libraries, based on a third-party user database and a server for sending API requests. I implemented the ability to subscribe and unsubscribe from users, save posts and messages in the local state, upload an avatar, change the status and description of your own page, log into the system and visit the profiles of other users.

// GitHub repo //

Game Space

Nov 2022 — Present

The web platform where you can choose and play different games, such as: "Rock Paper Scissors", "Hangman", " Pong", and others. I used TypeScript, Next.js, and Redux.
