Professional Working Proficiency

Polish
Professional Working Proficiency

Russian
Full Professional Proficiency

PERSONAL PROJECTS

Social Network (08/2022 - Present)
▶ I created a social network using React and React-Redux libraries, based on a third-party user database and a server for sending API requests. I implemented the ability to subscribe and unsubscribe from users, save posts and messages in the local state, upload an avatar, change the status and description of your own page, log into the system and visit the profiles of other users.

Movie Collection (03/2022 - 04/2022)
▶ This project was originally a collection of the top 100 movies with links to the IMDB of the movie and to the pirate page of this movie for free viewing. However, this project can be used to create your own collection of favorite movies. Implemented the ability to edit, add and remove movies. I used Python(Django.py), My SQL, CSS, and HTML.

TECHNICAL SKILLS

Skill	Rating
JavaScript	●○○○○
React.js/react-redux	●●●●○
HTML	●●●●●
SCSS/CSS	●●●●○
Python	●●●○○
Django.py	●●○○○
My SQL	●●○○○

KEY SKILLS

Front-end Architecture   SPA constructuring

Webpage Optimization

Performance Improvement   Feature Designing

UI/UX Designing   Project Delivery
